

AMPLIFY IMPACT

AND ECONOMIC OPPORTUNITY

Turn your investment into measurable impact and improve economic opportunity by empowering young people to fulfill their potential.

Why JA? Why Now?

Did you know that 40 to 60% of high school students are considered “chronically disengaged” from their education? By investing in JA, your support is visible, meaningful, measurable and demonstrates your commitment to the future success of our regions young people. **Consider partnering in one of the following ways:**

Grade Level

\$14,500

For \$14,500, fund an **entire grade level's participation** in a JA Capstone program—either JA BizTown or JA Finance Park, which includes 8-12 teacher-led lessons and a hands-on, 4-5 hour real world simulation where students learn vital financial literacy & career readiness skills.

Classroom

\$3,750

For \$3,750, fund a JA Capstone experience for **one classroom** in JA BizTown or JA Finance Park. This investment brings the same engaging financial literacy and career readiness education as the Grade Level tier, providing hands-on learning tailored to a single class of students.

Student

\$120

For \$120, fund a JA Capstone experience for **one student** in JA BizTown or JA Finance Park. This contribution delivers the same impactful financial literacy and career readiness education as the Classroom and Grade Level tiers, with a focus on personalized, individual impact.

To learn more about the different ways you can support Junior Achievement, please contact Associate Development Director, **Mary Beth Taylor**, at mtaylor@jacarolinas.org or **(704) 295-4882**.
